The University of Northern Iowa offers a unique course sequence that leads to the Driver Education Endorsement. Teachers may earn the Driver Education (5-12) Endorsement by completing nine units of credit that includes coursework in accident prevention, drug and alcohol abuse, general vehicle safety and behind-the-wheel driving.

**PROGRAM FEATURES**
For licensed secondary teachers*, completion of the courses indicated in the program of study qualifies individuals to teach both inside the classroom and behind-the-wheel components of driver education.

*If preparation for the initial teaching license was at the elementary level, completion of student teaching in driver education at the secondary level is also required. However, for licensed elementary teachers who have at least two years of teaching experience, the secondary student teaching requirement may be met by completing the Experience in Safety Education course and providing a letter that documents the number of years of classroom experience.

**FLEXIBLE DELIVERY**
This manageable, nine-month course sequence offers two courses each semester, with a total of 9 units of credit.
Courses in this program are offered via interactive video conferencing, with additional in-car and in-person experiences as arranged. Some coursework is offered online using Blackboard, a dynamic platform that enhances your learning experience and sense of community with fellow classmates.
